## From the Office of: *Denise Schweiger*

MKAssist4u seeks a Web Developer and Graphic Designer. This part-time contracted position is paid on a per client basis with the potential to grow into a full-time position. The ideal candidate must be multi-faceted in internet knowledge, including website design, website programming and flash design/development. Responsibilities include updating content on existing websites, designing websites for new projects and continually developing new website ideas for the growth of the product. Must be proficient in CSS programming, and possess excellent communication and reliable work ethic skills. The candidate must be able to take a web-based project from concept to launch, be able to work on multiple projects concurrently, meet deadlines in a fast paced environment and possess a desire to learn new emerging web technologies. Candidate will work independently as well as collaboratively with team members. We are looking for a strong team player that is resourceful, self-motivated and creative. Interested parties should send resume, examples or portfolios and references to [denise@mkassist4u.com](mailto:denise@mkassist4u.com) or visit our website at [www.mkassist4u.com/JoinUs.html](http://www.mkassist4u.com/JoinUs.html)
